

# D-Slim

Pressure Relief Wheelchair Cushion

## Summary

The D-Slim wheelchair cushion is probably the most affordable low-profile, light weight pressure relief cushion. The cushion can be customized anywhere in the field to suit the user's needs. The cushion includes a contoured base, a top "interface" layer of high quality foam, and unique features which enhance pressure management and positioning. The cushion was tested and has met all US Medicare requirements for the E2603 Skin Protection Cushion. The Design is consistent with the World Health Organization guidelines on the provision of manual wheelchairs in less resourced settings and is serviceable thanks to the wheelchair service training packages.

The cushion length can be shortened from the front by cutting out the cushion base and top layer to the desired seat depth.
